

Patriots! Get out and mobilise one million voters!
By Miguna Miguna, June 14, 2017

Good morning, afternoon and evening, patriots! Please circulate this message to all voters, our members and supporters.

I am happy to report that our ground and social media mobilization efforts are bearing huge benefits. We are on course to victory if we maintain the pace, energy and tempo.

Let's demonstrate our seriousness and commitments through our consistency, robustness and courage.

Those affiliated with colleges and universities should organize meetings like our comrades in Kenyatta University and Multimedia University have done. Those were very successful meetings where we managed to recruit more than 3,000 supporters and campaign volunteers.

Those affiliated with churches, mosques, houses of worship and/or spiritual centres should do the same.

So far, we have managed to spread the word and have converted hundreds of thousands of voters by visiting and engaging with church leaders and congregations in Makadara; Kariobangi South; Buru Buru; Roysambu and Embakasi. This weekend, we are back in Buru Buru.

We need more engagements, events, activities and outreach.

Patriots involved in neighborhood associations, community and civic groups should similarly organize walkabouts, town hall meetings, discussions and other mobilization events.

To date, comrades in Roysambu, Imara Daima, Westlands, Kasarani, South B and South C have organised meetings.

We need more!!

Our teams must be seen and felt everywhere.

Our mobilizers must be present in every estate - leafy or slum.

Each voter has only one vote. No vote is more valuable than the other.

We need each patriotic vote on August 8th in order to defeat the cartels - [Evans Kidero](#), [Peter Kenneth](#) and [Mike Sonko](#).

We have comrades affiliated with groups such as Bunge la Wananchi, teachers organisations, trade unions and professional associations or groups.

These patriots must organize themselves, invite our teams to interact with them and mobilise voters like August 8th will be the beginning of life in Nairobi.

The more meetings we organize and address, the more certain our victory will be. August 8th is our encounter with destiny. We must ensure that it is defining and historic!

In case you need to discuss scheduling of meetings, mobilisation events or dates for conferences, please get in touch with Maurice Mulinge (+254-733-587-278), the campaign manager and Lilian (info@migunamiguna.com) and Sam Otieno (+254-720-248-820), our spokespersons.

It's important that we process all meeting requests through the formal campaign structure so as to avoid double booking and other administrative hitches.

Mulinge, Lilian and Sam will be able to assess your requests and see if or when we can meet with or attend your events.

Ultimately, it is volunteers, supporters and patriots who will determine our success. Candidates have no capacity to mobilise enough voters for victory. Only volunteers have this power. So, I strongly urge you to exercise this power fearlessly.

However, we stress that as an independent candidate, I am going to work with ALL ELECTED MCAs whether they are independent and/or regardless of their party affiliations.

We are also going to mobilize all patriotic Nairobi voters regardless of which presidential candidate and/or coalitions or political parties they support.

Explain to voters that they should support us regardless of their party affiliations and/or preferences at the presidential, Senate, Women Rep, MP or MCA levels.

The only characters we are campaigning against are our opponents on the gubernatorial race - the rapacious cartels.

This is a very significant point to be crystal clear about.

We will work with any president, senator, women rep and MCA that Kenyans have elected.

We are not and must not be engaged in any turf wars and/or rivalries among presidential and other candidates.

When elected, we will deliver services to all Nairobians regardless of their political preferences, ethnic backgrounds, race, gender or other differences.

We have about 53 days to mobilize all patriots for victory.

Let's utilise the remaining days with focus, discipline and relentless determination.

Those who are able to donate please visit our website www.migunamiguna.com and contribute via PesaPal or PayPal.

You may also donate via MPESA on the telephone number on my Twitter handle and Facebook page - +254-735-026.

Elections in Canada, Australia and the UK are routinely conducted within one month. 53 days is a lot of time to make a difference.

Our votes are our power! Nobody owns voters!

This is the time for positive transformative change, we must defeat the cartels and make Nairobi prosperous.

Cheers. Viva [#TeamIntegrity](#)
